What's covered in this audio CD

Throughout history there have been tales of goblins, leprechauns, and other similar beings. Do any of these things exist? Do ghost exist?

Why do people say they see ghosts, are they just their imagination?

What about the black arts? For example, those who dabble in the occult? Can one actually gain power from "worshipping" dark entities? Is there is a difference if you light a white candle vs. a black candle? Or, to put

it another way, do colors have different vibrations?

Is Halloween offensive to God?

What about Mardi Gras and similar celebrations?

Where did the concept of a devil and Satan come from?

Can someone be possessed?

Is an experience like "The Exorcist" real?

What about angels?

Why can children and animals "see" ghosts and other phenomena?

Is there a Santa Claus?

Tooth Fairy?

What is the purpose of such things in relation to flow?

Do fairy tales have any basis in reality?

Are they actually blockages to flow?

What about aliens? Do aliens exist?
Are aliens on this planet? Are they superior to humans?

Is fantasy better than reality?

If I have a good dream that makes me feel great why am I unable to duplicate that experience in my real life?
